

**AMENDMENTS TO THE SPECIFICATION**

***In the Specification:***

Please **AMEND** the specification as shown in the following marked up paragraphs, which show changes made relative to the immediate prior version.

Please **AMEND** the paragraph beginning on page 8, line 15 as follows:

--The light ~~guiding~~ source part 11 comprises a light source 10 including a light emitting device (LED). At one edge of the light source, a first light guiding plate 12 is provided to induce toward the light guiding part 21 the light beams generated from the light source 10.--

Please **AMEND** the paragraph beginning on page 9, line 13 as follows:

--Referring to FIG. 5, a first pattern part 13 is disposed at ~~one surface 12b of the light guiding plate 12 that is opposite to the surface facing the light guiding plate 12 adjacent to the incident face of the light beams generate from the light source 10~~ a second side surface 12b of the light guiding plate 12 opposite to a first side surface 21a of the light guiding plate 12. The first side surface 12a is adjacent to the light guiding part 21, and the light beam generated from the light source 10 passes into the light guiding part 21 through the first side surface 12a. That is, the first side surface 12a of the light guiding plate 12 is adjacent to an incident face of the light guiding part.--
